EDUCATION

Indian Institute of Information Technology, Lucknow

Nov 2022 - Jun 2026

Bachelor of Technology (B.Tech) - Computer Science; **CGPA: 9.01/10**; **SGPA: 9.5/10**; [Transcript](#)

EXPERIENCE

Morgan Stanley

Bangalore, India

Technology Spring Analyst

Jan 2026 - Present

- Engineered a centralized log retention system from scratch using **React.js** and **FastAPI** to track change management events across **60+** internal applications.
- Implemented cron job ingestion of **~6,000** daily logs (**~500** API requests/day) into **MongoDB**, bypassing Splunk's 90-day retention limit to ensure long-term data availability for enterprise analytics.

Amazon

Hyderabad, India

Software Dev Engineer Intern [🔗](#)

Jul 2025 - Dec 2025

- Built a **Tier-1** delivery planning service architecture from scratch that handles **40,000 to 50,000** TPS of global order traffic.
- Designed a deployment stack using **Cell-based Architecture**, partitioning incoming global traffic by input data to route requests across **4 region-specific** isolated fleets.
- Rewrote the regression testing framework to increase API traffic coverage from **45% to 99%** and prevent production outages.

Morgan Stanley

Bangalore, India

Technology Summer Analyst [🔗](#)

May 2025 - Jul 2025

- Contributed to the internal data security platform by implementing a new **Flask-based API** service designed to identify **1000+** sensitive PII documents.
- Integrated an endpoint with existing **React.js** dashboard, facilitating real-time permission remediation for security teams across the firm.

PROJECTS

Guardian Vision

HTML, CSS, JavaScript, OpenCV, Yolo V8

- Developed Guardian Vision, an **ML project** focused on weapon & violence detection. Tackled real-time challenges using OpenCV & YOLO V8.
- Achieved **92% accuracy** with a custom-trained model, implementing asynchronous processing for **real-time** email alerts to prevent main-thread blocking during video inference.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, SQL, HTML, CSS.

Frameworks: FastAPI, Spring Boot, Node.js, Express.js, React.js, Flutter.

Databases: MySQL, PostgreSQL, MongoDB, Firebase.

Infrastructure & Tools: AWS, Git, GitHub, Linux, Splunk.

Coursework: Data Structures, OOPS, OS, CN, DBMS, Software Engineering.

ACHIEVEMENTS

- Competitive Programming Ratings:**
 - Codeforces:** Expert (Max Rating: 1695) | Global Rank 173 in Round 997
 - LeetCode:** Guardian (Max Rating: 2164)
 - CodeChef:** 4-Star (Max Rating: 1970) | Global Rank 27 in Starters 157
 - AtCoder:** 5 Kyu (Max Rating: 1083)
- Problem Solving:** Solved **1,500+** algorithmic problems across major competitive programming platforms.
- Hackathon:** Runner-up at **Hack-O-Fiesta V4.0** - IIIT Lucknow's hackathon.

POSITION OF RESPONSIBILITY

- Former Co-Ordinator, App Development Wing (Axios, IIITL Technical Club):** Led technical workshops and mentored 200+ juniors on application development using Flutter.
